

Come join us in Las Vegas, Nevada, for the Small Bottler Issues Forum, Wednesday, September 28 from 10:00 a.m. – 11:15 a.m.

This Forum is a unique opportunity for you to learn if you should consider selling your business or when you should consider acquiring another bottled water company; is it possible to increase profits operating a point-of-use; and learn how new federal food safety law requirements will affect your business.

The forum will consist of the following three presentations:

1. How to determine whether you should sell your business or consider buying another bottled water company. (15 Minutes)

Presenter: Lance Tullius, Tullius Partners

2. Can you operate point-of-use (POU) profitably? (15 Minutes)

Presenter: David Carlile, 3M Purification Inc.

3. What small bottled water companies need to know about new federal food safety law requirements. (15 Minutes)

Presenter: Christopher Dunn, NSF International

Come with your questions and be ready for an informative and interactive session of learning! You will walk away with best practices you can apply to your business immediately and help you increase profits.

To register electronically for this exciting event, **fill out the IBWA Small Bottler Issues Forum registration form below**. If you have any questions, please contact Dennis Carpenter at dcarpenter@bottledwater.org.
